Hi everyone, its Rob from Betfair.

Couple of people flagging a few issues with Profit & Loss, i've investigated and there are a few have slight issues with some transactions.

If anyone is wanting to address this please use the formula below:

```
=IF(PROFIT_LOSS > 0, IF(BID_TYP = "B" , (PRICE_TAKEN-1)*BET_SIZE, BET_SIZE) , 0)+  
IF(PROFIT_LOSS < 0, IF(BID_TYP = "L" , (PRICE_TAKEN-1)*-BETSIZE, -BETSIZE ) ,0)
```

Any further questions relating to this please let me know.

Regards,

Rob
